S 8° W 17.8'
- MAG nail and 2" shiner set in hack 0.4' above grade on the southwest side of a 4" buckeye;
S 66° E 18.2'
- MAG nail and 2" shiner set in hack 0.5' above grade on the northeast root of a 15" maple;
N 70° W 9.4'

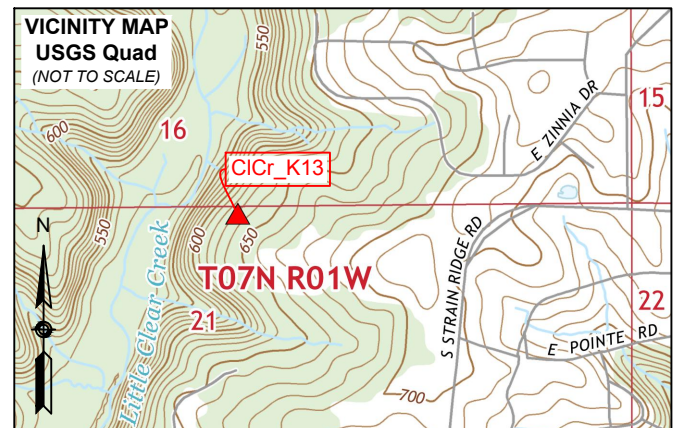

OTHER ACCESSORIES:

A 5' t-post was set 0.4' north of the pipe with a Monroe County Surveyor Marker sign attached 2.0' above grade, facing west.

OTHER OBSERVATIONS:

The pipe is at the northwest corner of the Lakeview Elementary School property and can easily be accessed from a nature trail that loops around the edge of the property. The pipe is on a steep west slope, in line with fence and/or fence remains to the north, south, and east.

The pipe was found leaning. I straightened it and drove it down until it was solid again, leaving 0.6 of a foot above grade. There was a flat stone on the south side of the pipe, which I dug up and examined for markings. Had the stone been planted, it would have looked similar to the stone that was found and accepted at the Center $\frac{1}{4}$ Corner of Section 21-T7N-R1W.
